The Multi Service Group.

Bilfinger Berger: Further transformation picking up pace

Commerzbank Sector Conference Week – General Industries

August 25, 2010

Bettina Schneider, Senior Manager Investor Relations

Andrea Zahn, Manager Investor Relations

Agenda

The Multi Service Group - Highlights

- European market leader in Industrial Services for the process industry
- Strong player in Power Services, European market leader for high-pressure piping
- German market leader for integrated facility management
  One of the few providing comprehensive real-estate related services along the life-cycle
- A leading player in civil construction with major focus on Europe
- Established partner of the public sector for concession projects in economically and politically stable regions
- Strong track record in acquisitions and integration
- Focus on services reduces dependency on economic cycles and on individual major projects

Further transformation picking up pace

- Significant reduction of volume in construction with a stronger regional focus and improved risk profile
- Planned sale of Bilfinger Berger Australia, IPO postponed as a result of the negative developments on the capital markets
- Continuous market screening for potential acquisitions in services
- New segment reporting provides greater transparency:
  → Industrial Services, Power Services, Building and Facility Services, Construction, Concessions
  → Bilfinger Berger Australia: Discontinued Operations

Civil engineering: Both groups of experts give positive assessment

- Both groups of experts – commissioned by the Executive Board in March 2010 to review the structural integrity and quality assurance of civil engineering projects – have completed their work
- Results provide confirmation of high quality of Bilfinger Berger's standards
- Structural integrity of the civil engineering projects they examined was confirmed without reservations
- Implementation and effectiveness of Bilfinger Berger's quality assurance system complies with the usual high standards of listed construction companies

→ No financial burden to be expected from projects with technologies similar to those used in the underground rail project in Cologne

Concessions: Australia and Canada currently our most dynamic markets

Markets and highlights

- Two new major projects in Australia
- One new Canadian project was closed in July: Women's College Hospital

Directors' valuation of Concessions portfolio

General

- The DCF method of valuation is generally used
- Only projects where "financial close" has taken effect are included
- Cash flows serving as the basis are derived from financial models approved by external lenders
- Future potential refinancing gains are not taken into account in the valuation
- Valuation is based on specific discount rates between 8% and 12% considering different risk profiles. Weighted average discount rate as at June 30, 2010 was 10.0%.
  (December 31, 2009: 10.2%)

Specific discount rates

- Weighted risk-free basic interest rate is derived from country specific long-term treasury bonds (currently 6 %)
- Premium on basic interest rate for project type adjustments
  - 2% for projects where revenues depend exclusively on the degree of availability (e.g. schools)
  - 3% for projects, that entail limited volume risks
- Further premium on basic interest rate for project phase adjustments
  - 3% in the construction phase
  - 2% in the ramp-up phase
  - 0% in the operation phase, when revenues and costs are certain

Portfolio value further increased
Additional upside potential if lower discount rate is applied

→ End of June 2010: NPV of € 265 million at a discount rate of 10.0% significantly above book value of € 167 million
