Directors' valuation of Concessions portfolio

General

- The DCF method of valuation is generally used
- Only projects where "financial close" has taken effect are included
- Cash flows serving as the basis are derived from financial models approved by external lenders
- Future potential refinancing gains are not taken into account in the valuation
- Valuation is based on specific discount rates between 8% and 12% considering different risk profiles. Weighted average discount rate as at December 31, 2009 was 10.2%. (December 31, 2008: 10.5%)

Specific discount rates

- Weighted risk-free basic interest rate is derived from country specific long-term treasury bonds (currently 6 %)
- Premium on basic interest rate for project type adjustments
 - 2% for projects where revenues depend exclusively on the degree of availability (e.g. schools)

The Multi Service Group.

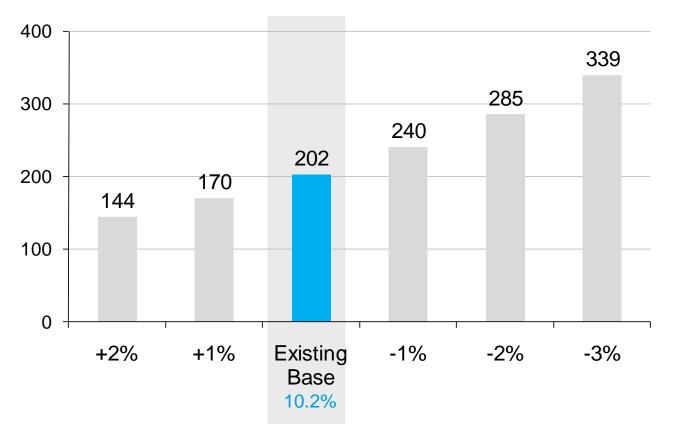

BILFINGER

- 3% for projects, that entail limited volume risks
- Further premium on basic interest rate for project phase adjustments
 - 3% in the construction phase
 - 2% in the ramp-up phase
 - 0% in the operation phase, when revenues and costs are certain

Portfolio value further increased

Additional upside potential if lower discount rate is applied

→ End of December 2009: NPV of € 202 million at a discount rate of 10.2% significantly above book value of € 140 million

Disclaimer

This presentation has been produced for support of oral information purposes only and contains forward-looking statements which involve risks and uncertainties. Forward-looking statements are statements that are not historical facts, including statements about our beliefs and expectations. Such statements made within this document are based on plans, estimates and projections as they are currently available to Bilfinger Berger AG. Forward-looking statements are therefore valid only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events. Apart from this, a number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in worldwide financial markets as well as the factors that derive from any change in worldwide economic development.

Nothing in this presentation constitutes an offer or intended offer of securities. In the event of an initial public offering of Bilfinger Berger Australia a prospectus for the offer will be lodged with the Australian Securities and Investments Commission.

This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or to any U.S. person (as defined in Regulation S under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act")). Securities may not be offered or sold in the United States or to U.S. persons unless the securities have been registered under the U.S. Securities Act or an exemption from registration is available.

In addition, the shares of Bilfinger Berger AG have not been registered under United States Securities Law and may not be offered, sold or delivered within the United States or to U.S. persons absent registration under or an applicable exemption from the registration requirements of the United States Securities Law.
