Bilfinger SE Company Presentation

Roadshow London

Herbert Bodner, CEO Andreas Müller, Head of Corporate Accounting & Tax / IR

1. Bilfinger at a glance

- 2. Key points of midterm corporate development
- 3. Facts and figures FY 2014
- 4. Financial backup

Successful evolution into a leading international engineering and services group

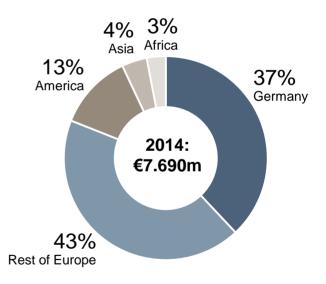

Segment	Industrial	Power	Building and Facility
Focus Output volume 2014 EBITA margin 2014 Divisions	Process Industry € 3.7 bn (47%) 5.1% Industrial Maintenance Insulation, Scaffolding and Painting	Utilities € 1.5 bn (19%) 0.6% Power Systems Piping Systems	Real Estate € 2.7 bn (34%) 5.1% Building Facility Services
	Oil and Gas Industrial Fabrication and Installation Engineering, Automation and Control Support Services		Real Estate Water Technologies
Output volume 2015e	Significant decrease	Significant decrease	Significant increase
EBITA 2015e	Significant decrease	Significant increase	Significant increase
EBITA margin 2015e	Prior-year level	Significant increase	Prior-year level

Broadening international footprint Growth strategy to further strengthen non-European business

Output volume by region

Bilfinger business model supported by favorable long-term industry trends

Positive structural trends

- Outsourcing
- Service bundling
- Internationalization

Favorable business characteristics

60% of output in recurring maintenance business

High retention rate of 80 to 95% in the various businesses

Asset light business

Capex: ~1.5% of output volume, favorable net working capital profile

Risk diversification

Broad customer range Mostly small project sizes Growing regional diversification

Shareholder-friendly dividend policy

Payout-ratio: ~50% of adjusted net profit

Financial soundness

BBB / negative outlook

Strong market positions

Industrial:

European market leader in Industrial Services for the process industry

Power:

Strong player in Power Services

Building and Facility:

German market leader for integrated facility management with strong positions in selected European countries

Agenda

- 1. Bilfinger at a glance
- 2. Key points of midterm corporate development
- 3. Facts and figures FY 2014
- 4. Financial backup

Improving the Group's operating performance

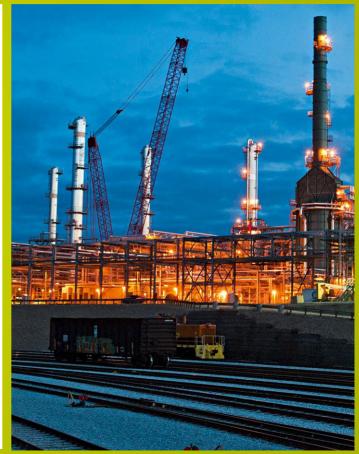

- Measures taken to improve the Group's operating performance are of key importance
- Measures apply above all to Power, which requires a fundamental realignment of its activities in view of market developments, and to some areas of Industrial

Development of service offering, internationalization of business activities

- Focusing our business operations on sectors and regional markets that offer best prospects for the future
- Developing ourselves into a provider of premium services through the targeted adjustment of our service range
- Internationalization will also play a key role In light of the weakness of several European core markets Growth opportunities above all in North America, but also in markets such as India, Turkey and the Middle East
- Initial focus on strengthening our current business
 In the future, once again, also business development via acquisitions
 New activities must demonstrate significant synergy potential with existing range of services

- Expansion of higher-margin and integrated service offerings
- Growth in core markets through the consistent utilization of existing client potential
- Cost savings following the merger of operating units
- Geographic focusing, expansion in selected foreign markets, for example gradual expansion of activities in the US process industry

- Concentration on improving operating performance
- South Africa: focus on services and modernization projects
- India: focus on component production
- Further internationalization, in particular into markets with a high share of coal in the energy mix

Building and Facility Prospects

- Taking advantage of the outsourcing trend for real-estate services
- Expansion of business with premium services, for example real-estate valuation or transaction consulting
- Increased management of international real-estate portfolios in Europe
- Further expansion of facility management services for IT companies
- In Building business, increased focus on consulting, design, logistics and other specialized services

- 1. Bilfinger at a glance
- 2. Key points of midterm corporate development
- 3. Facts and figures FY 2014
- 4. Financial backup

FY 2014: An unsatisfactory year for Bilfinger

- Earnings in line with forecast
- Dividend of €2.00 per share proposed
- Cautious expectations for 2015
- Bilfinger Excellence implemented as planned
- Restructuring programs in Power and Industrial
- Construction division sold to Implenia
- Offshore Systems activities put up for sale now presented under discontinued operations
- Changes in Executive Board and Supervisory Board

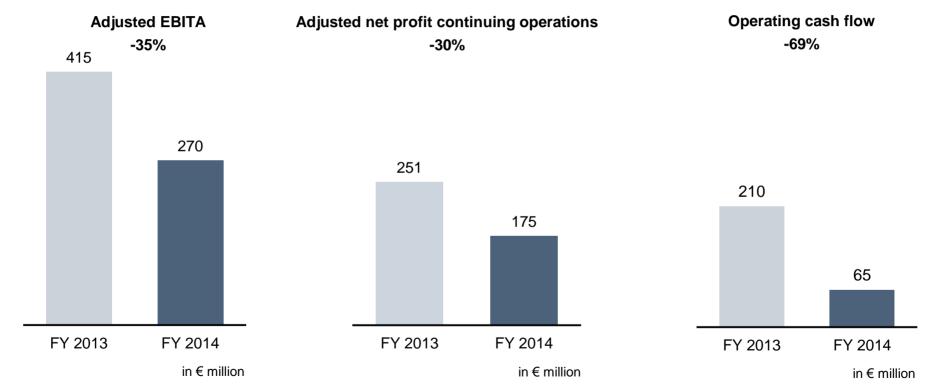

Increase in output volume Orders received and order backlog decline

Earnings and operating cash flow significantly below prior-year period

EBITA: adjusted for capital gains as well as for one-time restructuring expenses

Adjusted net profit: also adjusted for the amortization of intangible assets from acquisitions and goodwill impairment

In addition, adjustment for the reduction of deferred tax assets on tax-loss carryforwards in accordance with the German Corporate Income Tax Act

Bilfinger SE Company Presentation | March 04, 201

Industrial **EBITA below prior-year level**

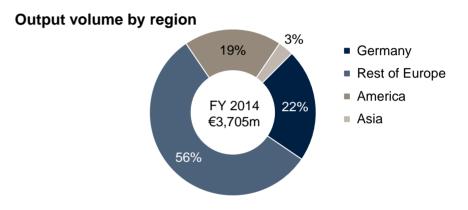

Markets and highlights

- Stable output volume
- Orders received decreased considerably, order backlog down accordingly
- The reticence to invest on the part of the European process industry, reduced maintenance budgets especially from oil and gas customers as well as increasing competitive pressure as a result of the situation in the energy sector have negatively impacted new business
- EBITA declined to €190 million, EBITA margin to 5.1%

Outlook 2015

- Significant decrease in output volume and adjusted EBITA
- EBITA margin at the level of the reporting year, through positive effects from programs for efficiency enhancement and process optimization
- The strong decline in the price of crude oil which began last summer is a considerable risk factor for this segment and leads to uncertainty Also, what impact the low price of oil will have on other industries that are relevant for Bilfinger is currently not yet foreseeable

in € million	FY 2013	FY 2014	Change
Output volume	3,721	3,705	0%
Orders received	3,986	3,276	-18%
Order backlog	2,791	2,404	-14%
Capital expenditure	73	67	-8%
Depreciation of P, P & E	64	64	0%
EBITA adjusted	214	190	-11%
EBITA margin adjusted	5.8%	5.1%	

Power Ongoing weakness in demand

Markets and highlights

- Output volume, orders received as well as order backlog significantly below the prior-year figure
- Low demand is the result of the energy transformation in Germany and its negative impact on investment behavior also in other Central European countries. This requires a fundamental realignment of the segment's activities
- Due to under-utilization of capacities in a number of areas as well as burdens from various projects, EBITA decreased to €8 million
- Measures necessary to adjust capacities, to reduce costs and to reposition the business have already been initiated

Outlook 2015

- Significant decrease in output volume as a result of restrained orders received
- Adjusted EBITA was at an unusually low level in 2014. In 2015, it will increase considerably due to positive effects from capacity adjustments and as a result of the elimination of one-time burdens

Output volume by region 12% 12% - Germany FY 2014 €1,445m 34% 38% - Sector Europe - America - Africa - Asia

in € million	FY 2013	FY 2014	Change
Output volume	1,577	1,445	-8%
Orders received	1,434	1,090	-24%
Order backlog	1,404	1,060	-25%
Capital expenditure	34	22	-35%
Depreciation of P, P & E	26	27	4%
EBITA adjusted	148	8	-95%
EBITA margin adjusted	9.4%	0.6%	

Building and Facility Continuation of positive business development

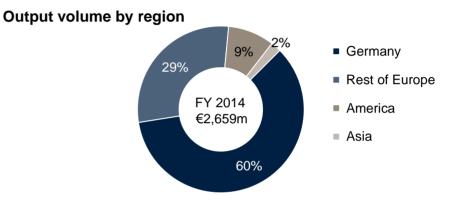

Markets and highlights

- Increase in output volume and EBITA
- Organic development FY 2014: 0% in output volume, +5% in EBITA
- EBITA margin increased to 5.1% (FY 2013: 4.9%)
- Order development in Facility Services and Real Estate was positive, orders received in Building declined due to the typical volatility of this business
- Overall orders received increased, order backlog was down

Outlook 2015

- Output volume will grow organically and will increase significantly as a result of the acquisition of British real-estate services provider GVA
- Adjusted EBITA will show a clear rise with a margin at the level of the reporting year

in € million	FY 2013	FY 2014	Change
Output volume	2,346	2,659	13%
Orders received	2,181	2,298	5%
Order backlog	2,304	2,004	-13%
Capital expenditure	21	32	52%
Depreciation of P, P & E	18	20	11%
EBITA adjusted	116	136	17%
EBITA margin adjusted	4.9%	5.1%	

Discontinued operations

- **Concessions**: Sale to BBGI infrastructure fund is completed
 - Proceeds of €103 million
 - Capital gain of €18 million
- Implenia signed an agreement in December 2014 to acquire the **Construction** division, which is active in Germany and other European countries. Completion of the transaction is expected in March 2015
 - Employees: nearly 1,900
 - Output volume: approx. €600 million
 - Net proceeds: approx. €230 million
 - Enterprise value: a good €100 million, EV/EBIT of approx. 6
 - Cash inflow: approx. €60 million (before transaction expenses)
 - Capital gain in the low double-digit million €-range, taking into account a risk provision
- With regard to the remaining Polish construction business, Bilfinger is in contact with other interested parties
- Offshore Systems has also been put up for sale and allocated to 'discontinued operations'

Outlook for FY 2015: Reserved development expected

- Output volume will decrease to a magnitude of €7.5 billion (2014: €7.7 billion).
- Adjusted EBITA will increase slightly with a higher margin (2014: €270 million)

Basis for this is the significantly improved earnings in Power as well as a higher earnings contribution in Building and Facility stemming from the planned volume increase

 Adjusted net profit will be slightly below the figure in 2014 (€175 million) due to lower interest result and higher minority interest

Bilfinger Excellence Driving integration and collaboration Enhancing efficiency in SG&A functions

Bilfinger

- Dissolution of former sub-group layer and related corporate centers
- Direct leadership of 12 divisions by Executive Board will drive integration and collaboration and thus organic growth
- Efficiency gains in SG&A functions via integration of core administration processes and moving transactional functions to shared service center
- Critical spending review and tight management of all non-personnel cost budgets
- Headcount reduction: ~1,250 FTE in non-customer facing SG&A functions only
- Recurring total personnel cost savings of approx. €80 million fully effective by FY 2016
- In addition, non-personnel cost savings in the low to mid double-digit million range
- One-off expenses in 2013 and 2014: in total €130 million

Initiated September 2013
