Positive outlook FY 2013

- Organic growth in Industrial, Power and Building and Facility as well as acquisitions made so far will more than compensate for the deconsolidation of the Nigerian business and further reduction in Construction.
This leads to an increase in output volume year-on-year
(Output Volume FY 2012: €8,635 million)
- Adjusted for capital gains from the sale of Nigerian activities in 2012, EBITA and net profit will continue to increase with higher margins
(EBITA and Net Profit FY 2012 adjusted: €421 million and €238 million, respectively)
