## 6m 2012: Highlights

-  Growth in difficult economic environment
-  Significantly higher earnings due to capital gains
-  Positive outlook for 2012
-  Acquisition of Westcon, a U.S. assembly and service specialist
-  Acquisition of engineering specialist Envi Con
-  Further reduction of investments in Nigerian business

# Positive outlook FY 2012

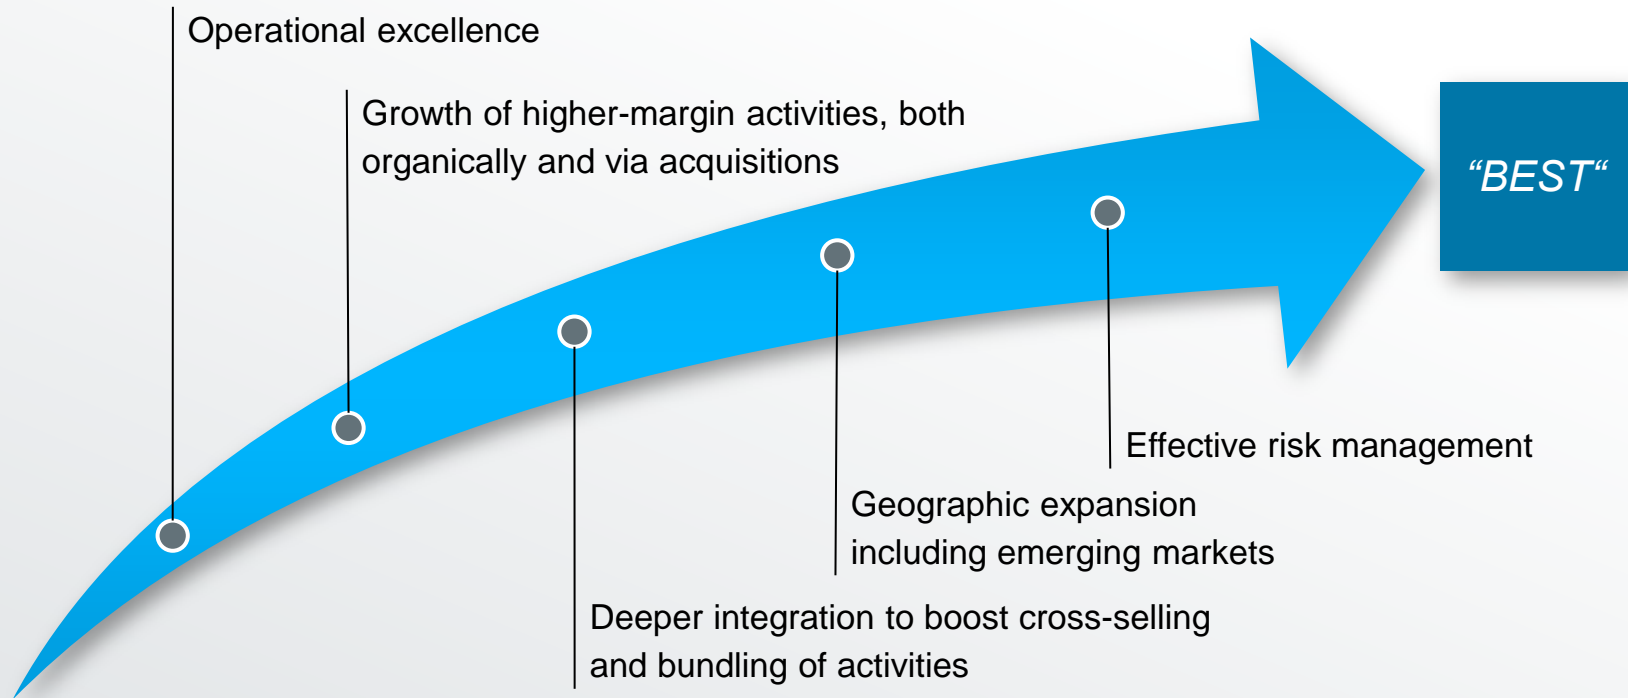

- Organic growth in the services business and the acquisitions made so far will largely compensate for the deconsolidation of the Nigerian business and the focusing of the Construction business segment  
**Output volume FY 2012e: at least €8.4 billion (FY 2011: €8,476 million)**
- Due to capital gains from sale of concession projects and Nigerian activities, a significant increase in EBITA is anticipated  
**EBITA FY 2012e: €450 to 470 million (FY 2011: €397 million)**
- Net profit from continuing operations to be substantially higher than in FY 2011  
**Net Profit FY 2012e: €265 to 275 million (FY 2011: €220 million)**
- We thereby assume that there will be no crisis-like developments in the economic environment over the course of the year
