

## Scope of Services Nuclear Technologies

- Studies
- Basic & Detail Design
- Static & Dynamic Analyses
- Manufacturing
- Quality Assurance
- Commissioning
- Operation

## Components for Nuclear Power Plants

- Containments & Containment Liners
- Stainless Steel Liners for Pools & Tanks
- Personnel Airlocks & Equipment Hatches
- Filter Exchange Machines
- Special Tools and Mechanical Equipment
- Storage Racks
- Waste Handling Systems

## Hot Cells

- Remote Handling Equipment
- Cranes and Manipulator Systems
- Radiation Shielding Windows and Lining
- Double Lid Systems
- Shielding Doors and Gates
- Grippers
- Air Filter Systems
- Special Components e.g. Cutting Device, Cementation Unit, Compactor, etc.

## Waste Treatment

- PHADEC™ Decontamination System
- Conditioning of Solid and Liquid Waste
- Super-Compactor
- Grouting Systems

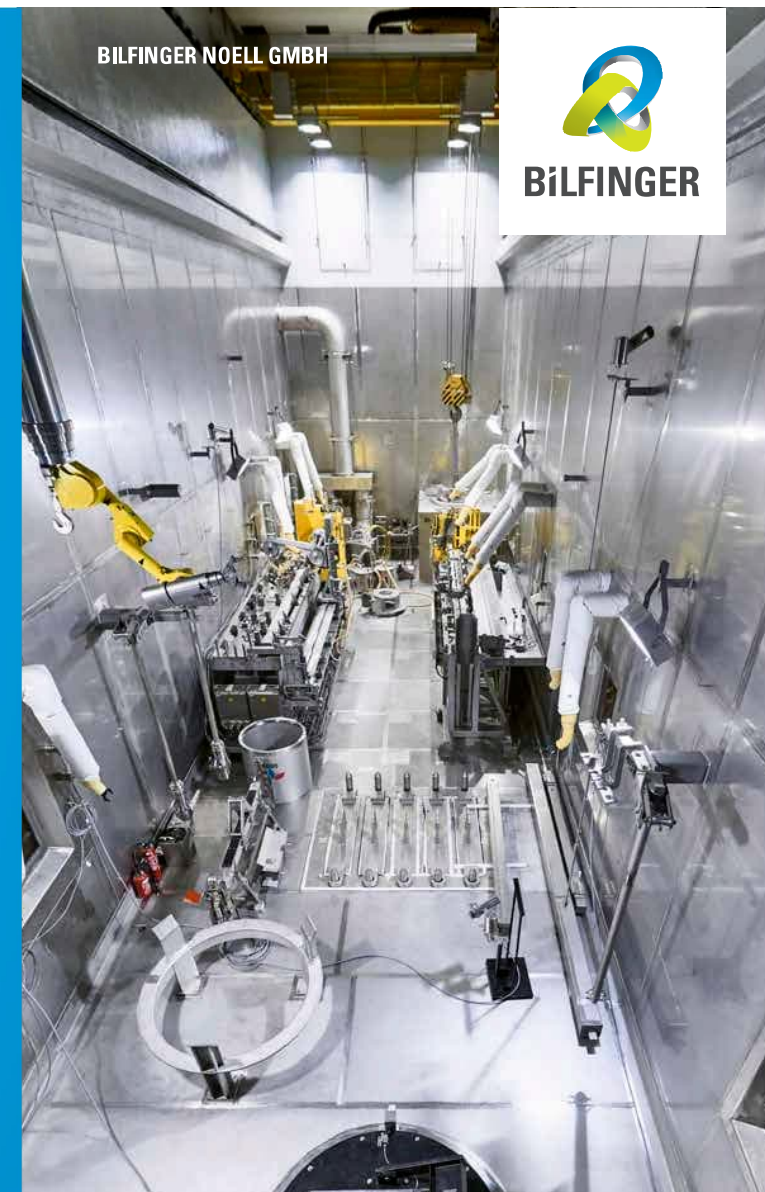

## Dismantling of Nuclear Facilities

- Development of Dismantling and Underwater Technologies
- Remote Handling Manipulator Systems
- Tools and Machines for Dry Reloading
