

A.4 Declaration of corporate governance with corporate governance report

In the following declaration of corporate governance issued in accordance with Sections 289f and 315d of the German Commercial Code (HGB), the Executive Board and the Supervisory Board report on the company's corporate governance in the reporting year in accordance with Principle 23 of the German Corporate Governance Code (GCGC) in the version dated April 28, 2022. The explanations apply to both Bilfinger SE and the Bilfinger Group, unless presented otherwise.

The declaration of corporate governance with the corporate governance report is published at the latest together with the consolidated financial statements and the combined management report and is then also available on the company's website. This and previous versions of the declaration of corporate governance are available for at least five years in accordance with the GCGC.

In December 2025, the Executive Board and Supervisory Board of Bilfinger SE approved the following declaration pursuant to Section 161 AktG:

Declaration from the Executive Board and the Supervisory Board of Bilfinger SE on the recommendations of the "Government Commission German Corporate Governance Code" pursuant to Section 161 of the German Stock Corporation Act (AktG)

Since the last declaration of compliance was issued in December 2024, Bilfinger SE has complied with all recommendations of the German Corporate Governance Code as amended on April 28, 2022, published by the Federal Ministry of Justice in the official section of the Federal Gazette (Bundesanzeiger), and will continue to comply with them in the future.

Mannheim, December 2025

For the Supervisory Board
Dr. Eckhard Cordes

For the Executive Board
Dr. Thomas Schulz

This declaration of compliance is also published on the company's website and is updated when changes occur as well as independent of any changes at least once a year. This and previous versions are available for at least five years in accordance with the GCGC.

Significant principles and practices of good governance

Within the scope of our activities on behalf of the company, we observe the generally recognized principles of responsible corporate governance. For Bilfinger, corporate governance most importantly means ethically and legally responsible behavior toward shareholders, employees, business partners, society and the environment. It determines the actions of our executives and the management and supervisory bodies of Bilfinger SE in particular and, according to general understanding, encompasses the entire system of management and supervision of a company, including its organization and management, its business principles and guidelines as well as the internal and external control and monitoring mechanisms. A comprehensive and transparent corporate governance ensures the responsible, value-oriented and sustainable management and control of the company and is therefore a top priority for Bilfinger. It forms the basis of our decision-making and control processes. It forms the foundation for sustainable business success and fosters trust among our shareholders, customers, employees, business partners and the financial markets.

German Corporate Governance Code

Bilfinger supports the goal set out by the GCGC of enhancing the transparency and comprehensibility of the dual German corporate governance system and fostering trust among national and international investors, customers, employees as well as the public and other stakeholders in the management and supervision of German listed companies. Bilfinger SE complies with all recommendations of the GCGC and also follows its non-binding suggestions.

Principles of our actions, Code of Conduct and adherence to human rights due diligence obligations

Our corporate practices are shaped by integrity, fairness, transparency and appreciation, both internally with employees and externally with business partners and the general public.

We take responsibility for our business activities, which we align with Group-wide standards. They are based on our corporate values as they are laid out in our Mission Statement, our Group Principles, the Group Statement of Principles on Human Rights and the Group policies. To achieve a lastingly stable and thus sustainable company success on this basis, it is

our goal that our business activities are also aligned with the needs of people, the environment and society. For further information, please also refer to the Chapter *Sustainability statement*.

We have defined the most important principles in our Code of Conduct. It provides all employees of Bilfinger SE and the Group with orientation for responsible, compliant and proper conduct in daily business. It serves as a blueprint for ethical-legal values and obligations in the company. The Code of Conduct and the substantiated Group policies are regularly reviewed and adjusted for current needs and developments. They are binding for members of the company's boards and all employees worldwide. The Code of Conduct is available on the Bilfinger website.

The German Act on Corporate Due Diligence to Prevent Human Rights Violations in Supply Chains (*Supply Chain Due Diligence Act*), which took effect on January 1, 2023, requires companies based in the Federal Republic of Germany and their subsidiaries to exercise due diligence in their supply chains with regard to human rights and environmental issues. The objective is to prevent or minimize human rights or environmental risks or to end violations of human rights or environmental obligations. In this context, the Executive Board of Bilfinger SE, already in 2022, established a risk management system for compliance with due diligence obligations which is fully integrated into the Bilfinger Compliance Management System (CMS), and appointed a Group Human Rights Officer. This officer is responsible for monitoring risk management to ensure compliance with human rights. Risk management is anchored Group-wide in all relevant business processes through appropriate measures. The Executive Board of Bilfinger SE adopted a Statement of Principles on Human Rights already in 2022. It is binding throughout the Group and published on the company's website. This Statement of principles is classified as an overriding governance document together with the Bilfinger Code of Conduct and it describes the procedures Bilfinger uses to meet its due diligence obligations under the German Supply Chain Due Diligence Act.

Transparency

Bilfinger SE informs participants in the capital market and interested members of the general public promptly, regularly and adequately regarding the economic situation of the Group and new relevant facts. The Annual Report, the half-year report and all quarterly statements are published in due time on the legally designated platforms and, in addition, on the company's website. We also provide information on current events and developments in press releases or ad hoc announcements required by law. More extensive information on the Group can be found on the company's website. All scheduled dates for important recurring publications or events, such as the Annual General Meeting, the Annual Report, the quarterly statements, the

interim report or the company's Capital Markets Day, are summarized in a financial calendar and are also available on the website.

In accordance with Recommendation A.6 of the GCGC, the Chairman of the Supervisory Board is also prepared, where necessary and in consultation with the Executive Board, to conduct discussions with investors on topics specific to the Supervisory Board.

Compliance and basic features of the compliance management system

Integrity, legal responsibility and compliance are inseparable from our daily business operations. Our objective is to ensure that all employees worldwide always fulfill their tasks in accordance with applicable laws, internal governance rules, in particular the Group policies, internationally recognized standards of behavior and – accepted – voluntary commitments. The comprehensively designed elements of the Bilfinger compliance management system are based on the principles of the Bilfinger Code of Conduct together with the so-called prevent – detect – respond model. They pursue the objective of preventing compliance violations through preventive measures, recognizing early any type of misconduct and, in the case of confirmed violations, reacting quickly and consistently punishing misconduct.

Supporting Group units through compliance directors and managers as well as local compliance representatives, training courses and regular internal communication ensures that all employees are familiarized with the Code of Conduct and all relevant compliance Group policies, including their amendments and updates. In addition, a Compliance Help Desk offers a central point of contact for comprehensive advice for all employees on relevant compliance topics.

We have also embedded appropriate compliance controls in our internal control system. All of our employees are required to report possible compliance violations. Such reports can also be made anonymously through the whistleblower system, which is not only available internally, but also to external third parties. Internal whistleblowers are particularly protected against reprisals. Information provided as well as other possible violations of compliance rules are carefully reviewed as part of our internal investigation process to determine and prove possible misconduct. Any indications of particularly serious compliance violations are assessed by an independent, cross-departmental committee (*Independent Allegation Management Committee – IAMC*). A separate committee (*Disciplinary Committee*) meets on an ad hoc basis – once a case has been referred to it by the IAMC – to discuss disciplinary measures against employees in connection with a violation of the Bilfinger Code of Conduct. Findings from the internal investigations are used to continually improve the compliance management

system with regard to the effectiveness of processes and controls. To manage and monitor the organization as well as the implementation and further development of the entire Bilfinger compliance management system, there is a Compliance Review Board. This body consists of the members of the Executive Board as well as the heads of the Group Functions and convenes under the chairmanship of the Chief Compliance Officer. Group Audit verifies the implementation of the compliance management system and the implementation of the compliance Group policies within the scope of internal audits in the individual Group units.

We also formulate clear compliance requirements for our business partners, because integrity and compliant behavior are a vital precondition for any relationship to proceed in a spirit of trust. For this reason, we work to ensure, in the selection of our direct business partners, that they comply with the laws, follow ethical principles and also operate this way in the supply chain. We apply a risk-based due diligence process to audit our business partners before entering into a business relationship and during the business relationship as part of ongoing and incident-related risk analyses. For certain third parties classified as very risky, there are also, in individual cases, audits conducted during the business relationship and controls by Group Audit.

The appropriateness and effectiveness of the Bilfinger compliance management system are continuously reviewed and optimized by us to ensure that regulatory requirements, market changes and the needs of our customers are taken into account. This is accomplished, among other things, through regular audits that take place as part of our certification in accordance with the ISO standard 37301. The continuing effectiveness of the Bilfinger compliance management system is a top priority for Bilfinger.

Description of the working methods of the Executive Board and Supervisory Board as well as the composition and working methods of their committees

Bilfinger SE is a European stock corporation headquartered in Germany and is subject in particular to the special European SE regulations and the German law on implementing a European Company as well as the German SE Employee Involvement Act. It has a dual management and control structure consisting of the Executive Board and the Supervisory Board. The two boards work in close cooperation for the benefit and in the interest of the company. The Articles of Incorporation as well as the Rules of Procedure for the Supervisory Board are also published on the company's website. The third corporate body is the Annual General Meeting, which is responsible in particular for fundamental decisions in accordance with statutory regulations.

Executive Board

The members of the Executive Board are appointed by the Supervisory Board. Throughout the reporting year, the Executive Board consisted of two members, Dr. Thomas Schulz (Chairman of the Executive Board and Group CEO) and Mr. Matti Jäkel (Member of the Executive Board and Group CFO). Information on the responsibilities and memberships of the members of the Executive Board can be found in the Chapter *Boards of the company*. The curricula vitae of the members of the Executive Board are available on the company's website.

The Executive Board manages the company in its own responsibility in the interests of the company, which means in the interests of shareholders, employees, business partners, other groups affiliated with the company, including the public, with the aim of sustainably increasing enterprise value. In this context, the Executive Board also takes into account sustainability matters relating to environmental, social and governance (ESG) issues. Responsibility for sustainability issues lies with the Executive Board as a whole. It represents the company to third parties.

The members of the Executive Board are jointly responsible for the overall management of the company. The responsibilities of the Executive Board include fundamental issues of business policy and corporate strategy, including the sustainability strategy, corporate planning, its implementation, information and coordination with the Supervisory Board as well as the management and monitoring of the operating Group units and businesses of Bilfinger SE and the Bilfinger Group. The Executive Board ensures that the risks and opportunities for the company associated with social and environmental factors and the ecological and social impact of the company's activities are systematically identified and assessed in accordance with relevant legal requirements. In addition to long-term goals, the corporate strategy also takes environmental and social goals into account to a sufficient degree. Information on sustainability at Bilfinger can be found on the company's website and in the Chapter *Sustainability statement*.

The Executive Board is also responsible for preparing the company's quarterly statements and half-year financial report as well as for preparing the annual and consolidated financial statements and the combined management report for the company and the Group. The Executive Board prepares the remuneration report together with the Supervisory Board. It must also establish an adequate and effective internal control system and risk management system. In the management report, a description of the main features of these systems is provided and an opinion on their adequacy and effectiveness is expressed. Unless already required by law, these systems should also cover sustainability-related objectives. This should include the processes and systems for recording and processing sustainability-related data. The systems also include a compliance management system that is aligned with the company's risk situation.

The compliance management system's basic features are described in the preceding Section *Compliance and basic features of the compliance management system*. Overall, the Executive Board ensures compliance with statutory provisions and internal governance rules in the company (*compliance*).

The members of the Executive Board base their actions on the legal requirements, the Articles of Incorporation, the Rules of Procedure for the Executive Board and the Schedule of Responsibilities as well as on the other relevant regulations. The Supervisory Board has issued Rules of Procedure for the Executive Board which contain the rules of cooperation within the Executive Board and between the Executive Board and the Supervisory Board. Furthermore, in accordance with the Schedule of Responsibilities approved by the Presiding Committee of the Supervisory Board, the members of the Executive Board are each assigned specific areas to manage independently. They take joint responsibility for the management of the company, however. In addition, the Chairman of the Executive Board coordinates the work of the Executive Board and of Executive Board members.

Regular meetings of the Executive Board are generally convened once each month. Extraordinary meetings of the Executive Board are held as required. The resolutions of the Executive Board are made primarily in the regular Executive Board meetings. They may, however, also be made in extraordinary Executive Board meetings, in written procedures or through other methods of communication.

For certain transactions and actions, including measures and transactions of an Executive Board member, which are of exceptional importance for the company or which involve an exceptional economic risk, the Executive Board Rules of Procedure or self-defined approval requirements defined by the Executive Board itself require a resolution by the full Executive Board. Approval from the Supervisory Board or one of its committees is also required for particularly significant actions and transactions in accordance with the Articles of Incorporation and Rules of Procedure, to the extent that statutory provisions do not already require the approval of the Supervisory Board. This includes, among other things, the fundamental determination of and basic changes to the corporate strategy as well as the Group organization, the addition of new business segments or the discontinuation of existing business segments, the Group budget, the purchase and sale of investments above a certain volume, operational, particularly high-volume projects with a certain risk structure as well as entering into long-term financial commitments and the issue of bonds.

At regular intervals, the Executive Board informs the Supervisory Board or its relevant committees comprehensively on all issues of relevance for the Bilfinger Group, the strategy of the

business units including the sustainability strategy, the corporate planning, profitability, business development and the financial position of the company as well as on the internal control system, the risk management system and the compliance management system.

The Executive Board has not formed any committees. It did, however, establish the Group Executive Management (*GEM*), a management team tasked with advising and supporting the Executive Board on operational and strategic issues of the Group as selected by the Executive Board. The committee discusses and develops topics that the Executive Board assigns and, where relevant, prepares them for discussion and possible decision by the Executive Board. In addition to the members of the Executive Board, the GEM comprises the heads of the three segments (Engineering & Maintenance Europe, Engineering & Maintenance International, Technologies), heads of certain Group Functions (Group Products & Innovation, Group HR & HSEQ and Group Procurement). GEM meetings are generally convened once each month.

With regard to the composition of the Executive Board, it is incumbent on the Supervisory Board to prepare a diversity concept pursuant to Section 289f Subsection 2 No. 6 HGB. This is described in greater detail in the Section *Diversity concept for the Executive Board and long-term succession planning*.

The members of the Executive Board are subject to a comprehensive non-competition clause during their period of employment; employment contracts also provide for a post-contractual non-competition clause for a specified period. The members of the Executive Board are obligated to act in the interests of the company and may not pursue any personal interests in their decisions; in particular, they may not take personal advantage of any of the company's business opportunities. They may only take on outside activities, in particular directorships outside of the company, with the approval of the Presiding Committee of the Supervisory Board or the Supervisory Board. Any remuneration for secondary activities within the Group is offset against the remuneration of the Executive Board. The Supervisory Board is responsible for deciding on the inclusion of remuneration for secondary activities outside the Group. Each member of the Executive Board is obligated to disclose any conflicts of interest to the Chairman of the Supervisory Board without delay and to inform the other members of the Executive Board accordingly. There were no conflicts of interest in the Executive Board in financial year 2025.

Details of the remuneration of the Executive Board members can be found in the remuneration report. The remuneration report for the last financial year, the respective auditor's report in accordance with Section 162 AktG as well as the current remuneration system for members of the Executive Board in accordance with Section 87a Subsections 1 and 2 Sentence 1 AktG are published – to the extent required by law and available – on the company's website and remain accessible there for at least ten years

Supervisory Board

In accordance with Article 8 of the Articles of Incorporation, the Supervisory Board of Bilfinger SE consists of 12 members, six of whom are representatives of the shareholders and six of whom are employee representatives. The shareholder representatives are elected by the Annual General Meeting. It is thereby incumbent on the Supervisory Board, in accordance with Section 124 Subsection 3 Sentence 1 AktG, to propose candidates to the Annual General Meeting. The appointment of the employee representatives is carried out by the SE Works Council in accordance with the agreement on employee participation reached between company management and the European employee representatives on July 15, 2010. With regard to the appointment of those members to be appointed by the SE Works Council, the Supervisory Board has no right to make proposals; it is – as is the case for the Annual General Meeting as well – not involved in the selection procedure for the employee representatives in the Supervisory Board. Members of the Supervisory Board all have the same rights and obligations and are not bound by instructions or orders.

The Supervisory Board advises and monitors the Executive Board in its management of the company and is responsible for the appointment and dismissal of Executive Board members, their employment contracts and remuneration, including the Executive Board remuneration system. At the proposal of the Presiding Committee, it sets targets for the variable remuneration components of the Executive Board's remuneration and their fulfillment in addition to any potential changes and reviews the appropriateness of the overall remuneration together with the remuneration system for the Executive Board on a regular basis. The Supervisory Board is also involved in decisions of fundamental importance to the company and discusses – generally with the Executive Board – business development and planning as well as strategy, including the sustainability strategy and its implementation, at regular intervals. For transactions of fundamental importance or which have been otherwise classified as particularly significant, the Articles of Association and Rules of Procedure stipulate that approval is required from the Supervisory Board or one of its committees. These include, for example, major acquisitions, disposals, capital expenditures and finance measures. The Supervisory Board, taking into account the external auditor and the audit reports submitted by them as well as the proposals of the Audit Committee, also undertakes a detailed examination, as required by law, of the individual financial statements, the consolidated financial statements and combined management report of Bilfinger SE and the Group, the sustainability statement as well as of the proposal of the Executive Board on the appropriation of profits. Within the scope of its responsibilities, the Supervisory Board also monitors the company's compliance with legal provisions,

official regulations and internal guidelines. The monitoring and advice provided by the Supervisory Board also include, in particular, ESG sustainability issues. The Strategy Committee and the Supervisory Board receive regular reports from the Executive Board on the Group-wide sustainability strategy and the status of its implementation. The Supervisory Board and the Audit Committee also deal with sustainability reporting, which in addition to reporting on non-financial issues in the management report also includes the sustainability statement. The Supervisory Board also receives information on new developments and the status of implementation. In general, the Supervisory Board receives reports from the Executive Board at regular intervals on issues provided for by law and other relevant topics. The information and reporting obligations of the Executive Board to the Supervisory Board, its committees and – between Supervisory Board meetings – to the Chairman of the Supervisory Board were defined in greater detail by the Supervisory Board in an information regulation.

The Supervisory Board executes its tasks in accordance with legal requirements, the Articles of Incorporation, its Rules of Procedure and its resolutions. The Chairman of the Supervisory Board coordinates the work of the Supervisory Board. The Supervisory Board meets regularly on individual topics and situations, also without the Executive Board.

The resolutions of the Supervisory Board are made primarily in Supervisory Board meetings. They can, however, also be made in written procedures or through other methods of communication. Insofar as nothing else is compulsory under the law, Supervisory Board resolutions require the simple majority of votes cast. In the event of a tied vote and a renewed voting which also leads to a tied vote, the Chairman of the Supervisory Board has a casting vote. In the reporting year, six meetings (thereof one extraordinary meeting) of the Supervisory Board took place. The Supervisory Board also took two decisions using a process via e-mail. Which meetings of the Supervisory Board each individual member attended in the reporting year can be viewed in the overview in the Chapter *Report of the Supervisory Board*.

Further details on the working methods of the Supervisory Board can be found in the Rules of Procedure for the Supervisory Board, which are available on the company's website.

Each member of the Supervisory Board must disclose conflicts of interest to the Supervisory Board. Information on conflicts of interest that have arisen and how they are dealt with is provided in the Report of the Supervisory Board. There were no conflicts of interest on the Supervisory Board in financial year 2025.

Special onboarding events are held for new Supervisory Board members to familiarize them with the company's business model and the structures of the Bilfinger Group. The members of the Supervisory Board are responsible for the training and continuing education measures that are necessary for them to perform their duties. They are supported by the

company in this regard. Further information on support for Supervisory Board members during their induction and on training and development measures can be found in the Chapter *Report of the Supervisory Board*.¹

In accordance with GCGC Recommendation D.12, the Supervisory Board evaluates the efficiency of its activities and those of its committees either internally or with the support of external consultants on a regular basis or at least every two years. In the 2025 reporting year, the Supervisory Board conducted a self-assessment together with external, independent consultants. All key aspects of the work of the Supervisory Board, including its committees, were dealt with using an online questionnaire. The Supervisory Board discussed the results of this audit in detail at its meeting on August 12, 2025. The results of the assessment confirm a professional, constructive cooperation within the Supervisory Board and with the Executive Board that is characterized by trust and openness. They also confirm that meetings are organized and conducted efficiently and that information is provided appropriately. Suggestions and recommendations for action will be implemented on an ongoing basis. Potential for further optimization of the work in the plenary session and the committees in individual areas was discussed and corresponding measures were introduced in the Supervisory Board. Overall, the composition and structure of the Supervisory Board are assessed as effective and efficient. The next, likely internal self-assessment of the Supervisory Board and its committees is scheduled for the 2027 financial year.

The Supervisory Board informs shareholders in detail about its activities as well as its additional reporting obligations in its annual report, which can be found in the Chapter *Report of the Supervisory Board*. The current composition of the Supervisory Board and its committees can be found in the Chapter *Boards of the company*. There, the mandates executed by members of the Supervisory Board in the controlling bodies of other companies as well as significant activities beyond the Supervisory Board mandate with the company are listed. The curricula vitae and mandates of Supervisory Board members are published on the company's website and are reviewed and, where necessary, updated at least annually.

The remuneration of the members of the Supervisory Board is presented in the remuneration report. The remuneration report for the last reporting year, the respective auditor's report and the last remuneration resolution are published – to the extent required by law and available – on the company's website.

Supervisory Board committees

In order to enhance the efficiency of its activities, the Supervisory Board formed a Presiding Committee, an Audit Committee, a Nomination Committee and a Strategy Committee. With the exception of the Nomination Committee, all committees have equal representation. The Supervisory Board has not established a separate committee for sustainability issues. For Bilfinger, sustainability is a key aspect of the company's overall business activities – one that is inherent in the individual topics and tasks. For this reason, the relevant topics are dealt with in the plenary session of the Supervisory Board or in the relevant committee in accordance with the tasks and responsibilities.

The resolutions of the committees were made primarily in the meetings, but partially also in written procedures or through other methods of communication. The respective chairmen of the committees reported to the plenary session of the Supervisory Board on the work done in the committees they lead.

Which meetings of the committees each individual member attended in the reporting year can be viewed in the overview in the Chapter *Report of the Supervisory Board*.

Presiding Committee

In the reporting year, the Presiding Committee of the Supervisory Board consisted of four members: Dr. Eckhard Cordes (Chairman of the Presiding Committee), Mr. Stephan Brückner (Deputy Chairman of the Presiding Committee), Dr. Bettina Volkens and Mr. Rainer Knerler. The main tasks of the Presiding Committee include regulating the personnel issues of the Executive Board and its remuneration, unless the provisions of the German Stock Corporation Act and the GCGC stipulate that they are to be regulated by the plenum of the Supervisory Board, as well as conflicts of interest of Executive Board members. In particular, the Presiding Committee submits proposals for the appointment and dismissal of Executive Board members, including remuneration and changes to remuneration, and is responsible for concluding, amending, extending and terminating employment contracts with members of the Executive Board, unless the Supervisory Board is mandatorily responsible. When making proposals for the initial appointment of members of the Executive Board, the Presiding Committee takes into account the fact that, according to the GCGC, the term of appointment should generally not exceed three years. When proposing candidates for appointment to the Executive Board, the Presiding Committee also takes into account the fulfillment of the diversity concept defined by

¹ This section also serves to implement the disclosures of the European Sustainability Reporting Standard ("ESRS") 2 GOV-1 The role of the administrative, management and supervisory bodies, Section 23.

the Supervisory Board for the Executive Board, including the target set for the proportion of women on the Executive Board and the long-term succession planning (for more information, please refer to the following Section *Diversity concept for the Executive Board and long-term succession planning*). The Presiding Committee prepares the relevant resolutions of the Supervisory Board and makes recommendations for important resolutions to the Supervisory Board. In the reporting year, four meetings of the Presiding Committee took place.

Audit Committee

In the reporting year, the four members of the Audit Committee were: Mr. Frank Lutz (Chairman of the Audit Committee), Ms. Vanessa Barth (Deputy Chairman of the Audit Committee), Dr. Roland Busch and Mr. Jörg Sommer. The members of the Audit Committee are, as a whole, familiar with the sector in which the company operates.

In the year under review, the Audit Committee included two independent members, Mr. Frank Lutz as Chairman and Dr. Roland Busch, who, in accordance with Section 100 Subsection 5 AktG and in accordance with Principle 15 as well as Recommendation D.3 of the GCGC, have expertise in the fields of accounting and auditing based on their training and previous professional activities and have particular experience in the application of accounting principles and internal control and risk management systems as well as sustainability reporting and the auditing of such reporting.

The Chairman of the Audit Committee, Mr. Frank Lutz, has worked for many years as Chief Financial Officer and as a member of the Supervisory Board and Chairman of the Audit Committee for various companies, including listed companies, and therefore, as a financial expert, has special knowledge and experience in the application of accounting principles and internal control and risk management systems, including sustainability reporting, and also has experience in the field of auditing. His many years as Chief Financial Officer of a listed international company, his current role as Chairman of the Audit Committee of two listed companies and his former role as Labor Director of Covestro AG and as Executive Board member responsible for HR at CRX Markets AG also included dealing with and reporting on non-financial matters. As former CEO of CRX Markets AG and as current President of the German Ice Hockey Association, Mr. Frank Lutz has extensive knowledge of sustainability reporting and auditing requirements. He follows the current developments in this area, including through internal Supervisory Board training and further education measures at both Bilfinger and Scout24 as well as by participating in various webinars, in particular on the topic of ESG and the corresponding reporting. He also regularly exchanges views on the topic of ESG with the Chairmen of the Audit

Committees of other DAX and MDAX companies and actively contributes this expertise to the Supervisory Board and the Audit Committee.

Given his many years of professional service and experience, including positions as Chief Financial Officer for Lufthansa Cargo AG as well as Swiss International Air Lines Ltd. and as a member of various supervisory boards of various internationally active publicly listed companies as well as his work as a member of the Risk Management Committee of the Lufthansa Group, Dr. Roland Busch as a financial expert has special knowledge and experience in the application of accounting principles and internal control and risk management systems and thus also has expertise in the field of accounting, in-depth knowledge of sustainability reporting and its auditing, and in the field of auditing financial statements. He follows the latest developments in this area, including training in the “External and Internal Monitoring of the Company” working group of the Schmalenbach-Gesellschaft für Betriebswirtschaft e.V. on topics such as ESG audit obligations of the Supervisory Board and actively contributes this expertise to the Supervisory Board and the Audit Committee.

The Audit Committee, in line with statutory requirements, deals with questions related to issues such as accounting and the monitoring of the accounting process, the effectiveness and appropriateness of the internal control system, the risk management system, the internal auditing system and the compliance management system as well as with the audit of the consolidated financial statements. It is responsible for the preliminary audit of the annual and consolidated financial statements and the combined management report of Bilfinger SE and the Group. On the basis of the auditor's report on the audit of the financial statements, the Audit Committee submits proposals for the adoption of the annual financial statements of Bilfinger SE and approval of the consolidated financial statements to the Supervisory Board following its own preliminary review. The Audit Committee is responsible for discussing the quarterly statements and the half-year financial report with the Executive Board and the auditors, and for dealing with the auditors' reports on the review of the consolidated half-year financial statements and the interim Group management report. It deals with the selection as well as the independence qualifications and efficiency of the auditor, issues the audit assignment for the annual financial statements and the consolidated financial statements to the auditor elected by the Annual General Meeting, reaches a fees agreement with the auditor and also reviews the additional services provided by the auditor as well as the quality of the audit. The Audit Committee also supports the Supervisory Board when it comes to monitoring compliance with regulatory requirements and standards in ESG areas. It discusses the sustainability declaration with the Executive Board and the appointed auditor prior to its publication and is responsible for commissioning any auditors. It deals with sustainability reporting, including reporting on

non-financial topics in the management report. The Audit Committee regularly consults with the auditor, also without the participation of the Executive Board. The Chairman of the Audit Committee also regularly discusses the progress of the audit with the auditor outside the meetings and reports to the committee on this item. Four meetings of the Audit Committee took place in the reporting year.

Nomination Committee

In accordance with Recommendation D.4 of the GCGC, the Supervisory Board also established a Nomination Committee. In the reporting year, the three members of the Nomination Committee were: Dr. Eckhard Cordes (Chairman of the Nomination Committee), Mr. Frank Lutz and Mr. Robert Schuchna. The committee proposes suitable candidates to the Supervisory Board for its proposals to the Annual General Meeting for the election of shareholder representatives to the Supervisory Board. On top of the necessary knowledge, skills and professional experience of the proposed candidates, the committee gives due consideration to the objectives designated by the Supervisory Board for its composition and the adopted diversity concept, including in particular aspects of independence and diversity, while at the same time striving to meet the competence profile. Attention is also paid to the appropriate participation of women and men in accordance with the statutory requirements on gender quotas. In the reporting year, the members of the Nomination Committee dealt with the selection of candidates for the Supervisory Board elections at the 2026 Annual General Meeting. Discussions and interviews with candidates took place outside of formal meetings.

Strategy Committee

The Strategy Committee consists of six members: Dr. Eckhard Cordes (Chairman of the Strategy Committee), Mr. Stephan Brückner (Deputy Chairman of the Strategy Committee), Mr. Evert Doornbos, Mr. Rainer Knerler, Mr. Frank Lutz and Mr. Robert Schuchna. The Strategy Committee supports the corporate strategy and Group organization (with the exception of personnel issues), including their fundamental implementation. In this context, it prepares any potential resolutions of the Supervisory Board and should formulate relevant recommendations for the Supervisory Board. In addition, it has responsibility for decisions on assigned legal business and transactions that require approval. The Strategy Committee convened for five meetings in the reporting year (thereof one extraordinary meeting). The Strategy Committee also made ten decisions by e-mail.

Equal participation of women and men in executive positions

With regard to the German Act on Equal Participation of Women and Men in Leadership Positions in the Private and Public Sector and its implementation in Section 17 Subsection 2 SE Implementation Act, and Sections 76 Subsection 4 and 111 Subsection 5 AktG, the Executive Board has defined for the period up to December 31, 2026, a target of at least 20 percent women for management level 1 and a target figure of at least 25 percent women for management level 2 below the Executive Board for Bilfinger SE. With regard to the new targets, it should be noted that the Bilfinger organizational structure was adjusted as of January 1, 2024.

As of December 31, 2025, the share of women according to the redefinition of the functional organization was 43 percent in management level 1 and 17 percent in management level 2.

On February 8, 2024, the Supervisory Board determined the target figure for men and women on the Executive Board by December 31, 2028, as follows: In the case of an Executive Board with two members, the target figure is zero percent, i.e. no women on the Executive Board. For an Executive Board with three members, the target figure is 33 percent, or at least one woman. When making future appointments to the Executive Board, the Supervisory Board will continue to incorporate the legislative goal of appointing women and men to the Executive Board as a relevant factor in any decision-making process. As has been the case to date, however, all aspects of the diversity concept for the Executive Board (see Section *Diversity concept for the Executive Board and long-term succession planning*) will also continue to govern the actions of the Presiding Committee and the Supervisory Board when searching for members of the Executive Board and, in individual cases, will take precedence over the mere fulfillment of the target figure to ensure that the best interests of Bilfinger are served. This applies in particular to an Executive Board with only two members, in which all competencies that are relevant for the management of Bilfinger must be met by only two people. Specifying a target of more than zero percent would, however, have created the impression that a woman would have had to be appointed the next time an Executive Board position was filled. At the same time, the Presiding Committee and Supervisory Board must take into account that the current two-member Executive Board is the minimum requirement. In this context, maximum flexibility is required in order to be able to fill a position at short notice if necessary and to ensure the capacity of the Executive Board to act. Last but not least, the industry in which Bilfinger operates, which historically has a very low proportion of women in management positions, must also be taken into account, meaning that the number of potential female candidates remains low. For this reason, the Supervisory Board cannot, at least at present, commit to a higher target than zero percent for an Executive Board with two members in the interest

of the company. Should there be a female candidate and a male candidate who are equally suitable for a replacement, preference would be given to the female candidate. This notwithstanding, Bilfinger has a strict succession planning and concept for the promotion of women, which is closely monitored by the Presiding Committee and Supervisory Board within the permissible framework. Increasing the proportion of women in management positions is generally taken seriously at Bilfinger and is pursued vigorously. At the same time, the Presiding Committee and Supervisory Board also keep an eye on the market in order to identify and evaluate potential external female candidates.

In addition, the legally required minimum share of women and men in the Supervisory Board was achieved as follows. For the Supervisory Board, the minimum requirement as of December 31, 2025, remains the statutory gender quota of a 30 percent share of women and men. This requirement is met with a 33 percent share of women on the Supervisory Board (four women, eight men) as of December 31, 2025, overall and, because the Supervisory Board rejected overall fulfillment, at the same time separately for shareholders and employee representatives (two women and four men each).

Diversity concept for the Executive Board and long-term succession planning

With regard to the composition of the Executive Board of Bilfinger SE, the Supervisory Board has adopted a diversity concept. The objective of the diversity concept for the Executive Board is to ensure that the composition of a strong Executive Board is as diverse and complementary as possible. When selecting members of the Executive Board, the Supervisory Board considers their personal suitability, leadership qualities, international experience and integrity, as well as their professional qualifications. The objective is to ensure that the Executive Board as a whole represents all of the knowledge and experience that is considered essential for Bilfinger. Diversity is therefore also an important selection criterion in terms of factors such as gender as well as educational and professional background when filling positions on the Executive Board. When making decisions on appointments to the Executive Board, the Supervisory Board – as does the Presiding Committee in its preparations – takes the following aspects into particular consideration, whereby the Supervisory Board always assesses all circumstances of the individual case when filling a specific Executive Board position and is guided by the interests of the company:

- The members of the Executive Board should have specific specialist knowledge and many years of leadership and management experience, including in large corporations or groups, and, if possible, possess knowledge and experience from different educational and professional backgrounds.
- At least one member should have international management experience. Given the international structure and orientation of the company, the composition of the Executive Board should take into account an international character, also in the sense of different cultural backgrounds or international experience gained through several years spent abroad.
- The Executive Board as a whole should have experience in the business sectors of importance to Bilfinger SE, in particular the process industry. Furthermore, the Executive Board in its entirety should have many years of experience in the areas of technology, services, compliance, finance and personnel management.
- Integrity should be a high priority for each individual Executive Board member.
- The Supervisory Board has defined a target for the proportion of women in the Executive Board. This is described in the Section *Equal participation of women and men in executive positions* and is taken into account when filling Executive Board positions.
- In accordance with the recommendation of the GCGC, the Supervisory Board has defined an age limit for members of the Executive Board at the age of 67, which is the statutory retirement age. Deviations from the age limit in individual cases are to be justified. Regardless of this rule, the Supervisory Board pays attention to a sufficient mix of ages among the members of the Executive Board.

Implementation of the diversity concept for the Executive Board

Implementation of the diversity concept for the Executive Board is carried out as part of the Executive Board appointment process. The Supervisory Board and Presiding Committee consider the requirements of the diversity concept defined for the Executive Board when selecting candidates and making proposals for the appointment of Executive Board members.

The composition of the Executive Board as of December 31, 2025, meets the requirements of the diversity concept.

The two members of the Executive Board, Dr. Thomas Schulz and Mr. Matti Jäkel, have a broad spectrum of knowledge and experience as well as educational and professional backgrounds and possess international experience. The curricula vitae of the current members of the Executive Board can be found in the Chapter *Executive Board of Bilfinger SE* and are available on the company's website where they are reviewed regularly, at least once a year,

and updated if necessary. The members of the Executive Board have many years of management experience, including in international groups, and bring with them experience from various careers. The Executive Board has the knowledge and experience considered essential in light of the services that Bilfinger provides.

Dr. Schulz in particular has many years of international management experience in publicly listed industrial groups and in business areas that are important for Bilfinger, and particular expertise in the sustainable positioning of energy-intensive industries – an important sector for Bilfinger in the future.

Mr. Matti Jäkel, an experienced CFO, contributes significantly to the further development of the company with his competence as a business professional and civil engineer and also has many years of management expertise in the company itself.

Compliance and integrity are a top priority for all members of the Executive Board. No Executive Board member has reached the age of 67.

Long-term succession planning for the Executive Board

The Supervisory Board and the Presiding Committee ensure that a long-term personnel and succession planning takes place in the Executive Board and coordinate this also with the Executive Board. In addition to the requirements of the German Stock Corporation Act (AktG), the GCGC and the Rules of Procedure for the Executive Board, particular account is taken of the criteria set out in the diversity concept adopted by the Supervisory Board for the composition of the Executive Board. Here, the Presiding Committee also takes into account the succession planning and talent management data for the subordinate management levels, for which the Executive Board is responsible. Due to the sensitivity of the topic, the corresponding planning process is primarily managed and coordinated in the Presiding Committee. The Presiding Committee deals with the subject of succession planning at least once a year as well as when the occasion arises. Potential succession options are examined both internally with the support of the Executive Board and externally, if necessary, with the help of external consultants. Coordination with the Executive Board regarding possible internal successors also includes support for the possible promotion of potential candidates. Personal suitability, professional qualifications for the position, previous performance and experience, integrity and convincing leadership qualities as well as the ability to adapt business models and processes in a changing world are particularly important criteria for an Executive Board candidate. The Executive Board must, in its entirety, have the knowledge, skills and experience necessary for the

orderly performance of its tasks. The Presiding Committee prepares the decisions of the Supervisory Board on the basis of the qualification requirements and the criteria mentioned and prepares proposals and recommendations.

Objectives for the composition, competence profile and diversity concept for the Supervisory Board

Pursuant to Recommendation C.1 GCGC, the Supervisory Board should name specific targets for its composition and develop a competence profile for the entire Supervisory Board. In this regard, the Supervisory Board should take diversity into account. The GCGC also recommends that proposals from the Supervisory Board to the Annual General Meeting take these objectives into consideration and, at the same time, that the fulfillment of the competence profile for the full Supervisory Board should be pursued. The status of the implementation shall be published in the declaration of corporate governance.

In terms of the composition of the Supervisory Board, it is to be ensured that its members generally have the knowledge, skills and experience necessary for the orderly execution of the office and the tasks associated with it, are in a position to devote the amount of time necessary to perform the duties of a Supervisory Board member and meet the particular requirements laid out by the law and the GCGC for the Supervisory Board, its committees and individual members. The objective of the competence profile for the full Supervisory Board of Bilfinger SE is to provide a qualified control and consultation to the Executive Board and to ensure that the composition of the Supervisory Board is as diverse and complementary as possible so that the Supervisory Board as a whole has the knowledge and experience considered essential in view of Bilfinger's activities. In the event of an upcoming new appointment, a relevant examination will be undertaken to determine which of the necessary and desirable skills on the Supervisory Board should be strengthened.

Bilfinger meets these recommendations. Therefore, the Supervisory Board within the framework of the specific situation of the company and considering diversity, in 2022 updated and, both this year and in previous years, confirmed the following goals for its composition, including the competence profile:

Competence profile

- At least two members should possess particular experience from leading positions in industrial or services companies.
- Ideally, three members should have detailed knowledge and experience gained within the company itself.

- The members should, as a whole, be familiar with the sector in which the company operates.
- While at least one independent member of the Supervisory Board is required to have special knowledge and experience in the field of accounting and at least one other member of the Supervisory Board is required to have expertise in the field of auditing, at least two others are required to have special knowledge and experience in business administration. The expertise in the field of accounting shall consist of special knowledge and experience in the application of accounting principles and internal control and risk management systems, and the expertise in the field of auditing shall consist of special knowledge and experience in the auditing of financial statements. Accounting and auditing also include sustainability reporting and the auditing of such reporting. The Chairman of the Audit Committee should have relevant expertise in at least one of the two fields.
- At least two members should, as a result of their international experience, embody to a significant extent the criterion of internationality.
- At least two members should have special experience in the field of human resources and social affairs (*social*).
- The Supervisory Board should, if possible, have, as representatives of the shareholders, three entrepreneurs or personalities who have already acquired experience in the management or monitoring of another medium-sized or large company.
- Overall, the members of the Supervisory Board should have expertise in the sustainability issues of relevance to the company in the areas of environmental, social and governance.
- Integrity should be a high priority for each individual Supervisory Board member.

Independence

- At least three shareholder representatives should be independent of the company, the Executive Board or a controlling shareholder, as defined in the provisions of Recommendation C.6 ff GCGC. In this regard, at least four shareholder representatives should be independent of the company and the Executive Board, which means that they should not have any personal or business relationship that could give rise to a material and not merely temporary conflict of interest, and they shall not have been members of the Supervisory Board for more than 12 years. In addition, at least two shareholder representatives should be independent of a controlling shareholder, insofar as such a controlling shareholder exists. In accordance with the GCGC, this is assumed to be the case in particular if one is not a member of the executive body of the controlling shareholder and has no personal or business relationship with the controlling shareholder that could give rise to a conflict of interest that is not merely temporary.

- The Chairmen of the Supervisory Board, the Audit Committee and the Presiding Committee shall be independent of the company and the Executive Board. The Chairman of the Audit Committee shall also be independent of the controlling shareholder.
- A maximum of two members are to be former members of the Executive Board.
- No member should exercise a management or consulting function for a significant competitor of the company. In addition, they should have no consulting or management function for clients, suppliers, creditors or other business partners, nor should they hold any position which could lead to a conflict of interest.

Age limit and term of office

- The Supervisory Board pays attention to a sufficient mix of ages among the members of the Supervisory Board.
- As a rule, no member should be over 75 years of age at the time of the Annual General Meeting which is to decide on his or her appointment as member of the Supervisory Board; exceptions are to be justified.
- Generally speaking, no shareholder representative should serve on the Supervisory Board for more than 12 years; any exceptions must be justified.

Diversity

- Overall, the members should represent a sufficient degree of diversity.
- In their entirety, members of the Supervisory Board should have different educational levels, professional and socio-economic backgrounds as well as geographic presences.
- The Supervisory Board should have a balance of male and female members; in this regard, the statutory minimum number of women and men is to be observed.

Implementation of the composition targets including the competence profile and diversity concept for the Supervisory Board

The proposals for the election of shareholder representatives to the Supervisory Board, which are made by the Supervisory Board to the Annual General Meeting, are prepared for the Supervisory Board by the Nomination Committee. This ensures that the objectives for the composition of the Supervisory Board, in particular the requirements set out in the competence profile and diversity concept, are taken into account when considering suitable candidates on the provision that those persons whose personal and professional qualifications make them the best suited for the position be proposed. The Supervisory Board considers the objectives

mentioned above in the resolutions it proposes to the Annual General Meeting for the appointment of shareholder representatives to the Supervisory Board. With the composition, fulfillment of the competence profile and the diversity concept should be pursued for the full committee. The implementation of the legally prescribed gender quota for the Supervisory Board remains unaffected.

The Annual General Meeting is not bound by nominations. The freedom of choice on the part of the employees in the election of Supervisory Board members from the employees is protected. In the process pursuant to statutory co-determination requirements for the election of employee representatives, the Supervisory Board has no nomination rights. The composition goals as well as the competence profile and diversity concept for the Supervisory Board are therefore not to be seen as requirements for those entitled to vote or as a limitation of their freedom of choice.

In the opinion of the Supervisory Board, its current composition satisfies the objectives of the composition and, in particular, also satisfies the competence profile and the diversity concept. The members of the Supervisory Board have the professional and personal qualifications deemed necessary. In addition, they are in their entirety familiar with the sector in which the company operates and have the knowledge, skills and professional experience essential for Bilfinger to properly perform their duties. Given the expertise available on the Supervisory Board with respect to sustainability issues that are important for the company, the Supervisory Board is in a position to monitor how environmental and social sustainability are taken into account in the company's strategic orientation and corporate planning. Targeted further training measures also in this area are supported and promoted by the company.

The current composition of the Supervisory Board and the committees as well as the length of service of their members can be seen in the Chapter *Boards of the company*. The CVs of current members of the Supervisory Board are available on the company's website. It can thus be seen from this information on the members that the Supervisory Board has a diverse composition. In their entirety, members of the Supervisory Board have different educational levels, professional and socio-economic backgrounds as well as geographic presences. In the 2024 reporting year, the Supervisory Board had four female members, two of them on the shareholder representative side and two on the employee representative side. This corresponds to a proportion of female members on the Supervisory Board of 33 percent.

With a view to the international orientation of the company, care shall be taken to ensure that the Supervisory Board includes a sufficient number of members with extensive international experience. More than the required two members of the Supervisory Board have professional experience in an international environment and particular knowledge and experience in finance and business administration (see the qualification matrix below). In particular, the Chairman of the Audit Committee, Mr. Frank Lutz, and Dr. Roland Busch meet the requirements for special knowledge and experience in the fields of accounting and auditing, internal control procedures and sustainability reporting and their review in accordance with Section 100 Subsection 5 AktG. At least four members have detailed knowledge and experience with Bilfinger itself. All shareholder representatives have special experience from management positions in industrial or service companies. In addition, at least five shareholder representatives are experienced in the management or monitoring of another medium-sized or large company. Compliance and integrity are a top priority for all members of the Supervisory Board. With the exception of Dr. Cordes, no member of the Supervisory Board is older than 75. There is thus an appropriate mix of ages among the members of the Supervisory Board.

All shareholder representatives are classified as independent as defined by the GCGC, i.e., independent of the company, the Executive Board and any controlling shareholders. As an independent member, Mr. Frank Lutz also serves as chairman of the Audit Committee. Given that the Supervisory Board does not consider mere employee status or an existing employment relationship to be reason for excluding independence, the according application of the GCGC would mean, that at least four employee representatives, namely Ms. Vanessa Barth, Mr. Evert Doornbos, Ms. Agnieszka Othman (formerly Al-Selwi) and Mr. Jörg Sommer would in any case be classified as independent of the company and the Executive Board. Mr. Brückner and Mr. Knerler are not included here only because they have each been members of the Supervisory Board for more than twelve years. Without exception, all employee representatives are considered independent of any controlling shareholder. No member of the Supervisory Board was previously a member of the Executive Board. The company also has no controlling shareholder within the meaning of the GCGC in conjunction with the German Stock Corporation Act. Not least, no member of the Supervisory Board exercises a management or consulting function for a significant competitor of the company. The status of the implementation of the competence profile is summarized below in the form of a qualification matrix²:

² The qualification matrix also serves to implement the disclosures of the European Sustainability Reporting Standard ("ESRS") 2 GOV-1 The role of the administrative, management and supervisory bodies, Section 20.c).

Shareholders and the Annual General Meeting

The shareholders of Bilfinger SE can exercise their membership rights, in particular their right to information and voting rights, at the Annual General Meeting in accordance with statutory provisions. The Annual General Meeting is to be convened and held at least once each year. The Annual General Meeting generally takes place within a five-month period after the end of a financial year. The Executive Board presents certain documents to the Annual General Meeting, including the company and consolidated financial statements as well as the combined management report for Bilfinger SE and the Bilfinger Group. It decides on the appropriation of profits and on formal approval of members of the Executive Board and the Supervisory Board, elects the auditor each year and, when needed, the members of the Supervisory Board representing the shareholders. In addition, decisions are made on the legal foundations of the company, including in particular amendments to the Articles of Incorporation, capital measures and in certain other cases as specified by applicable law or the Articles of Incorporation. It decides in an original capacity on the approval of the remuneration system for the members of the Supervisory Board and the specific remuneration of the Supervisory Board as well as in a recommending capacity on the approval of the remuneration report for the preceding financial year and in a generally advisory character on the approval of the remuneration system for the members of the Executive Board. Each share entitles its holder to one vote at the Annual General Meeting. From the time an Annual General Meeting is convened until the end of the Annual General Meeting, the reports, documents and information required by law for the Annual General Meeting are available on the company's website, as are the agenda for the Annual General Meeting and any counter-motions or election proposals from shareholders that are to be made accessible. For upcoming elections of shareholder representatives to the Supervisory Board, a detailed curriculum vitae is also published for each candidate, providing information on, among other things, his or her main activities and relevant knowledge, skills and professional experience.

In accordance with Section 118a Subsection 1 Sentence 1 AktG in conjunction with Section 16a of the Articles of Association of Bilfinger SE, the Annual General Meeting was conducted on May 14, 2025, as a virtual Annual General Meeting without the physical presence of shareholders or their proxies, with shareholders being able to exercise their rights by means of electronic communication and to follow the Annual General Meeting on the Internet via the online service provided.

Details on our investor relations activities are provided in the Section *Transparency*.

Reportable transactions with financial instruments of the company (managers' transactions)

Pursuant to Article 19 of Regulation (EU) 596/2014 of April 16, 2014, on market abuse (market abuse regulation) including amendments made most recently by Regulation (EU) 2019/2115 of November 27, 2019, the members of the Supervisory Board and Executive Board as well as other persons with management duties who regularly have access to insider information on the company and who are authorized to make significant business decisions, and certain persons who are in a close relationship with those persons, are legally obligated to immediately disclose to Bilfinger SE and the German Federal Financial Supervisory Authority (BaFin) any acquisitions and disposals of Bilfinger shares and related financial instruments, particularly derivatives, in an amount of more than €20,000 in any calendar year, as soon as possible and at the latest within three working days. Bilfinger immediately publishes details of such transactions on its website, among other places.

Financial loss liability insurance

The company has taken out financial loss liability insurance for Board members of Bilfinger SE and certain other managers of Bilfinger Group companies, which covers the activities of the members of the Executive Board and the Supervisory Board (D&O insurance). This insurance includes at least the deductible for Executive Board members legally required by Section 93 Subsection 2 Sentence 3 AktG.
