BIS - OPTIMISE PLANT PERFORMANCE BY INSPECTION WITH INTEGRATED SERVICES

The Bilfinger Inspection Solution reduces interfaces, delivering fit-for-purpose, risk based inspection and maintenance strategies throughout your plants' full lifecycle.

Bilfinger can accelerate your drive to achieve operational excellence and value enhancement:

- Fully-integrated services maximise productivity and cost efficiencies
- Ensure effective delivery of RBI across the full asset lifecycle
- Provision of inspection and testing services accredited to ISO 1720 and ISO 1725
- Powerful contracting strategy
- Access to fully tested and validated technology and solutions
- Local access to world-class expertise and technology
- Extensive global capability and capacity to quickly respond to changing requirements

The BIS provides a truly transformational service over the life of your assets
