IS ACHIEVABLE AT YOUR
PROJECT WITH US

Our HSE Management department's goal is to create an extremely safe, healthy, and sustainable working environment for you and your colleagues. We support industrial companies in optimizing their HSE performance. Moreover, we make sure that you know which laws and regulations you have to comply with and how to do so.

Why Safety?

Every accident prevented and life saved at the construction site means smooth workflow without delays, extra costs, legal complications and consequences including the loss of good reputation. Safety also helps to support wellbeing of the workers and quality of the work done.

What can Bilfinger Tebodin CEE do for you?

Bilfinger Tebodin's HSE consultants offer expert consultancy services for your projects, but also support at the location on a secondment basis. We offer expertise in strategic HSE issues and operational tasks. For example, we are involved in writing procedures, audits (internal and external). We also support clients in assessing their occupational safety risks and implementing the requirements for HSE coordination within projects. Moreover, our HSE consultants continuously remain informed of the rapidly changing laws and regulations. We translate all current standards and requirements into practical working methods at your location. Lastly, Bilfinger Tebodin can support you in all phases of your project: HSE in design, HSE in construction, and HSE in operations.
