Bilfinger publishes 2022 Annual Report

Bilfinger SE published its Annual Report for the 2022 financial year on March 13, 2023. The report is now available in German and English at www.bilfinger.com and also contains the Non-financial Group declaration 2022.

Bilfinger's [preliminary figures](#) for financial year 2022 were published on February 14, 2023.

The target: Number 1 for efficiency and sustainability

With the enhanced strategy published at the Capital Markets Day in February 2023, Bilfinger has defined two strategic thrusts: repositioning itself as a leader when it comes to increasing efficiency and sustainability for its customer as well as improving operational excellence in order to enhance the organization's performance. With a portfolio of solutions covering the entire value chain, Bilfinger is a reliable partner working to help the process industry achieve its sustainability goals.

In line with the strategic realignment, Bilfinger understands the achievement of its own sustainability goals as an important aspect of the company's success and further refined these goals in 2022. Bilfinger has set indicator-based targets in each of the three sustainability categories Environment, Social and Governance. These are aimed, among other things, at reducing CO₂ emissions. Milestones include achieving climate neutrality for emissions in Greenhouse Gas (GHG) Protocol Scopes 1 and 2 by 2030 and 'Net Zero' status in GHG Scopes 1, 2 and 3 by 2050. Bilfinger plans to submit its plan for reducing CO₂ emissions to limit global warming to a maximum of 1.5 degrees Celsius to the Science-Based Target Initiative (SBTi) for review.

Bilfinger has also set the goal of further improving occupational safety, increasing investment in the training and further education of its workforce and conducting at least 600 internal supplier audits each year in order to meet due diligence obligations in the supply chain.

The Bilfinger Group's sustainability goals are described in detail in the current Non-financial Group declaration as well as on the [Group website](#).

Bilfinger is an international industrial services provider. The aim of the Group's activities is to increase the efficiency and sustainability of customers in the process industry and to establish itself as the number one partner in the market for this purpose. Bilfinger's comprehensive portfolio covers the entire value chain from consulting, engineering, manufacturing, assembly, maintenance and plant expansion to turnarounds and digital applications.

The company delivers its services in two service lines: Engineering & Maintenance and Technologies. Bilfinger is primarily active in Europe, North America and the Middle East. Process industry customers come from sectors that include energy, chemicals & petrochemicals, pharma & biopharma and oil & gas. With its ~30,000 employees, Bilfinger upholds the highest standards of safety and quality and generated revenue of €4.3 billion in financial year 2022. To achieve its goals, Bilfinger has identified two strategic thrusts: repositioning itself as a leader in increasing efficiency and sustainability, and driving operational excellence to improve the organizational performance.
