The Services segment comprises the worldwide businesses of Industrial Services, Power Services and Facility Services

Figures 2007e: Output volume

Industrial Services with high degree of technical competence

- Bilfinger Berger Industrial Services is a leading European industrial services provider for the process industry
Expansion of U.K. Industrial Services with the acquisition of O'Hare Engineering in 2007
- Bilfinger Berger Services Australasia is a provider of maintenance services for the gas, water, power and mining industries in Australia with good growth prospective
- Fru-Con is supplying maintenance services at manufacturing sites across the United States.

Power Services for the entire life cycle

- Bilfinger Berger Power Services with strong market position in Germany and selected European countries
- Growing activities in Middle East and South Africa
- Focus on pressure parts of fossil and nuclear power plants (boiler, high-pressure piping, etc.)
- Rising global demand for energy, the increasing need for rehabilitation and new power plants all provide the Power Services division with excellent perspectives for the future

Facility Services go beyond “classic” Facility Management service areas

- Bilfinger Berger Facility Services has its strongest foothold in Germany:
 - Encompasses technical facility management and property management services
 - Services go beyond “classic” areas:
Focus on activities with higher barriers of entry – soft facility management (cleaning, security, catering etc.) is typically sub-contracted when full-service package is provided
- Centennial is a leading player in U.S. job order contracting business

Dynamic progress in all three divisions

Key issues

- Strong demand in all divisions
- Services is one of the major growth areas within the Bilfinger Berger group: > 5% p.a. expected organic growth
- Acquisitions will add to growth additionally

Outlook 2007:

- Increase in output volume to €3.3 billion and a further increase in operating margin

Civil: Bilfinger Berger is among the leading players worldwide for major infrastructure projects

Markets

- Australia: Currently strongest Civil market within the group
- Germany: Fragmented market structure, price level still unsatisfactory despite improving demand
- Rest of Europe: Scandinavia, France, Switzerland, Austria, Poland
- America: Focus on Canada
- Middle East: Gaining momentum
- Nigeria: Ongoing demand from private-sector clients, particularly in the oil and gas industry

Civil: Targeting growth opportunities in selected international markets

Key issues

- High order backlog as a result of strong demand in Australia and the Persian Gulf region as well as concession projects
- Selective bidding in Germany

Key figures

Outlook 2007:

- Increase in output volume to €3.6 billion with earnings increasing by a higher rate

in € million	6m 2006	6m 2007	Change	2006

EBITA	4	11	175%	43

Building and Industrial: Focus on selected markets

Markets

- Germany: Market revival translates into new orders, additional momentum from increasing acceptance of PPP models
High proportion of repeat customers
- Nigeria: Excellent market position in the oil and gas industry
- Australia: Good demand

Building and Industrial: Strong synergies with Services and Concessions segments

Key issues

- Careful approach in Germany in view of rising costs for materials and subcontractor services
- Selective bidding leads to stable volume at improved earnings quality
- Orders increase through € 400m from participation in Barwa City project
- Strong synergies with Services and Concessions segments

Key figures

Concessions:

Focus on markets with stable political and economic conditions

Markets

- Only countries with a stable political and economical environment
- Sector focus:
 - Transport infrastructure with limited volume risk (roads, bridges, tunnels)
 - Social infrastructure (schools, hospitals, prisons, etc.)

Concessions: Continuous growth of portfolio

Key issues

- Competitive edge against pure financial investors is the know-how covering the entire value-chain
- Three closings in 2007 with additional committed equity of € 24 million after four major closings of in total € 64 million committed equity in 2006
- Full bidding pipeline promises further growth in upcoming years
- End of June 2007: Increase of NPV to € 110 million at discount rate of 10.3%

Key figures

Outlook 2007:

- EBITA to be slightly lower than in 2006 due to the early stage of maturity of our projects and increased bidding costs, NPV will increase once again

Growth through acquisitions

Total investment of more than €1 billion enterprise value since 2002

Average of ~ €200 million investment per year

Move into Services

- Further expansion of our Industrial, Power and Facility Services business
- Services already contribute 36% of output volume and more than 50% of EBITA

Share of Services in relation to Group volume and EBITA before consolidation

Expansion of Concessions

- Positive growth trend of our portfolio of private-sector concessions (PPP) projects
- Temporary decline in 2006 due to portfolio adjustment and sale of mature projects

Directors' valuation of Concessions portfolio

General

- The DCF method of valuation is generally used
- Only projects where “financial close” has taken effect are included
- Cash flows serving as the basis are derived from financial models approved by external lenders
- Future potential refinancing gains are not taken into account in the valuation
- Valuation is based on specific discount rates between 8% and 12% considering different risk profiles. Weighted average discount rate as at December 31, 2006 was 10.5% (Dec. 2005: 11.4%)

Specific discount rates

- Weighted risk-free basic interest rate is derived from country specific long-term treasury bonds (currently 6 %)
- Premium on basic interest rate for project type adjustments
 - 2% for projects where revenues depend exclusively on the degree of availability (e.g. schools)
 - 3% for projects, that entail limited volume risks
- Further premium on basic interest rate for project phase adjustments
 - 3% in the construction phase
 - 2% in the ramp-up phase
 - 0% in the operation phase, when revenues and costs are certain
