Raising the growth potential
Industrial service market
Continuous growth of operating plants

- Number of plants in our defined markets growing constantly
- More than 75% of plants are over 10 years old and number of ageing plants increasing
- Complexity of plants is increasing with positive effect on service requirements
- Ageing plants require higher level of maintenance and modernization
- Customers demand greater efficiency
- Authorities impose stricter environmental standards on plant operators (reduced emissions)

Preliminary Figures FY 2017 and Guidance FY 2018
FY 2017: Orders received have bottomed out, organic increase after three years of decline

**Orders received**
FY 2017: significant organic increase, book-to-bill ~1
Q4: organic growth at +6%, book-to-bill >1

**Output volume**
FY 2017: organically stable at > €4b and hence above expectations
Q4: organic growth in second consecutive quarter

**EBITA adjusted**
FY 2017: positive at €3m despite burden of ~€50m from US legacy projects
Q4: strong year-end rally

**Net profit**
FY 2017: net profit significantly lower than prior-year figure which was supported by sale of Apleona. Adjusted net profit at prior-year level
Outlook 2018: significant improvement of earnings

**Liquidity**
Cash flow still affected by cash-out for efficiency enhancements
FY 2017: Cash flow improved against prior year

**Balance sheet / dividend**
Solid balance sheet supporting a repeat dividend proposal\(^1\) of €1.00 per share; share buyback plan to be continued as planned

**Outlook 2018**
Organic growth of orders received in mid-single-digit percentage range,
revenue organically stable to slightly increasing
Significant improvement of EBITA adjusted despite strong increase of start-up costs for business development and digitalization

\(^1\) Intended dividend proposal of Executive Board, subject to a corresponding resolution from the Supervisory Board
Market situation E&T

Oil and gas:
- Continued cautious investment sentiment in European project business
- Positive dynamic in selected areas such as gas supply and gas pipelines in Europe and Middle East
- Positive development in US shale gas, e.g. Exxon

Chemicals and petrochemicals:
- Market growth in North America with focus on the US Gulf Coast continues
- The Middle East market remains challenging, but opportunities for value-adding services
- Increasing number of requests for small- and midsized projects in Europe
- Increased trend towards digitalization, especially from small- and mid-caps, with the goal of optimizing production processes and efficiency enhancements

Energy and utilities:
- In Europe growth perspectives mainly in nuclear, also from emissions control, modernization and efficiency enhancements at existing plants
- Market for fossil fuel power plants remains difficult
- In Middle East shift from conventional to alternative energy

Pharma and biopharma:
- In Europe further increase in demand
- Investments increasingly being made in emerging markets, first steps in Middle East and China
Oil and gas:
- Customers keeping OPEX budgets at low level despite a higher oil price, i.e. increase in demand for maintenance not expected before second half of 2018, but generally increased optimism in offshore market

Chemicals and petrochemicals:
- Stable demand in Continental Europe in maintenance business and growing willingness to invest, slight increase in number of requests for small MMO-projects (brownfield, e.g. de-bottlenecking)
- Key customers in onshore/downstream market in U.K. with significant budgets
- In the Middle East, impetus from expansion of vertical integration driving import of required expertise, asset performance and energy efficiency

Energy and utilities:
- In Middle East shift from conventional to alternative energy
- In Europe ongoing limited demand for traditional power plant services, instead more decentralization and outsourcing, digitalization as trend, focus on renewables

Metallurgy:
- Slight pick-up / increase in pre-studies in Middle East and Europe, especially in Norway
Orders received: back to organic growth after three years of decline

Development of orders received

- **Orders received:**
  - In Q4 1% above prior-year figure (org.: +6%)
  - Full year at prior-year level (org.: +4%)
  - Positive organic development supported by extension of framework contracts in MMO

- **Book-to-bill:** ~1
- **Order backlog:** -3% below prior-year (org.: +2%)

## Initiatives for cost structure improvement

### IT PROJECTS

- **Status of process and system harmonization:** Roll-in of first pilot executed, further pilots in preparation
- **HRcules:** Roll-in of pilot entities completed, further roll-ins in preparation
- **CRM:** group-wide roll-out completed by 70%, 100% planned for first half of 2018

### PURCHASING INITIATIVE

- Alignment of global sourcing organization based on categories
- Initiatives regarding fleet and telecoms started, significant savings potential identified and partly realized
- Implementation of **BTOP tools:** progress in program roll-out and in development of first actions

### MERGER OF OPERATING UNITS

Two mergers of operating units were completed by BET and Bilfinger UK. For 2018, further mergers are planned.

- Reduces number of legal entities
- Increases quality and efficiency
- Offers customers a greater range of services from a single source

### Accretive:
- So far five, in future four additional units “managed for value”
  (after re-integration of Bilfinger VAM to core business)

### Business development:
- Orders received in FY -5% below comparable, but organic growth at +23%, in Q4 strong increase of +21% (org. +43%)
- Output volume in FY decreased by -32% (org. -5%), as expected in Q4 decline of -29%, organically slightly positive at +2%
- Decrease of EBITA adj. in FY from €5 m to €3 m, positive one-off in prior-year to be considered
Bilfinger VAM:
Top-line synergies due to strong overlaps in customer and service portfolio as well as in regions

- Re-integration of Bilfinger VAM from OOP/Accretive into core business
- Strategic fit:
  "2 service lines": esp. turnarounds,
  "4 regions": Continental Europe (DACH, France, Scandinavia, BeNe)
  "6 industries": Chemicals & Petrochem., Energy & Utilities, Oil & Gas, Metallurgy
- 2018e: revenue: ~€160m, ~4% EBITA adj.
- ~60% in MMO, ~40% in E&T
- Top-line synergies: esp. with turnarounds and in energy sector
- Cost synergies: consolidation of locations, VAM will be integrated in SG&A efficiency programs (IT, procurement etc.)

Re-integration effective by January 01, 2018
Gross profit in full year well below prior-year, but strong Q4

- Full year burdened by US legacy projects
- Strong Q4 due to project close-outs
- Future improvement by optimization of project management as well as IT and procurement initiatives

FY 2017:
- Amortisation €8m
- Depreciation on P, P and E €72m, thereof €3m exceptional
Significantly lower selling and administrative expenses in Q4 and FY
