**E&T**
- Concentrated know-how
- Centralized project governance
- Leverage high-value resources
- Enables fast roll-out of innovations

**MMO**
- Use International Scale

In every region:
- Customer proximity
- Management of capacity utilization
- More collaboration and cross selling
- Higher SG&A efficiency

**Use Regional Scale**
Raising the growth potential
Industrial service market
Continuous growth of operating plants

- Number of plants in our defined markets growing constantly

- More than 75% of plants are over 10 years old and number of ageing plants increasing

- Complexity of plants is increasing with positive effect on service requirements

- Ageing plants require higher level of maintenance and modernization

- Customers demand greater efficiency

- Authorities impose stricter environmental standards on plant operators (reduced emissions)

Structural demand for industrial services

**Number of plants in our markets**

- 1970: 12k (8k active plants under 10 years old, 4k active plants over 10 years old)
- 1990: 20k (16k active plants under 10 years old, 4k active plants over 10 years old)
- 2010: 32k (25k active plants under 10 years old, 7k active plants over 10 years old)
- 2020: 45k (33k active plants under 10 years old, 12k active plants over 10 years old)

### Digitalization in the process industry

#### Initial situation
- Limited productivity improvements, potentials exhausted
- Plant complexity is increasing
- Increasing M&A activities among our customers
- Customers demand greater efficiency and lean approaches
- Demographic change requires knowledge transfer
- Regional, digital solutions at Bilfinger

#### Potentials through digitalization
- Asset performance
- Efficiency enhancement
- Tap into new markets
- Collaboration and access to knowledge

Current market situation E&T

Oil and gas:
- Continued cautious investment sentiment in European project business in Oil, some activities in gas supply and gas pipelines
- Increase in activity in US shale oil and gas (mid-stream) in various fields
- Signs of recovery in Middle East, projects moving from early prospects to approval and RFQs

Chemicals and petrochemicals:
- In Europe brownfield investments still very active, more greenfield projects expected
- Still many key opportunities in North America with focus on the US Gulf Coast
- The Middle East market remains challenging, increasing demand for owner’s engineering services
- Increased trend towards digitalization, especially from small- and mid-caps, with the goal of optimizing production processes and efficiency enhancements

Energy and utilities:
- In Europe growth perspectives mainly in nuclear, also from emissions control, modernization and efficiency enhancements at existing plants
- Market for fossil fuel power plants remains difficult
- In Middle East shift from conventional to alternative energy, growing interest for emissions control

Pharma and biopharma:
- Demand in Europe continues to be strong
- Requests also from Emerging Markets
Oil and gas:
• Demand for maintenance services starts to improve, (smaller) projects now beginning to advance from idea to approval
• Market remains competitive

Chemicals and petrochemicals:
• Furthermore stable demand in Europe in maintenance business and growing willingness to invest, increasing number of requests for small MMO-projects (brownfield, e.g. de-bottlenecking)
• Middle East customers stable on OPEX

Energy and utilities:
• In Middle East shift from conventional to alternative energy
• In Europe ongoing limited demand for traditional power plant services, instead more decentralization and outsourcing, digitalization as trend, focus on renewables, demand for modifications in hydro power stations

Metallurgy:
• In Europe Aluminum with stable demand on good level, Steal with signs of improvement, but industry faces structural changes (consolidation, potential US import tariffs)
Continuing positive momentum in orders received: fourth consecutive quarter with growth, book-to-bill at 1.2

*APPENDIX*
E&T with positive momentum in orders received

Development of revenue and profitability

- Orders received:
  Strong quarter with +16% (org.: +18%) in comparison to weak prior-year, book-to-bill at 1.1 with significant contracts in all focus industries

- Revenue:
  Decrease by -11% (org. -7%) as a consequence out of low order backlog at beginning of the year
  Increasing capacity utilization expected over the course of the year

- EBITA adjusted:
  Partly still poor utilization in Europe (Ex-Power) and still low volume in North America, but y-o-y improvement
MMO orders received and revenue with significant organic growth

  In the first quarter typically weaker, however, with 2.1% stable y-o-y

**APPENDIX**
OOP¹):
Dilutive: disposals nearly completed
Accretive: sales process kicked off for two units

Progress M&A track / Dilutive:
- 13 units as of December 31, 2016
- 11 have already been sold; two more with signing respectively termination
  - Q1 2018: €2m positive P&L- as well as cash-effect
  - Cash-out expected FY 2018: ~€5m, but no further capital losses

Accretive:
- Four units “managed for value” (after re-integration of Bilfinger VAM to core business)
- Sales process kicked off for two units

Business development:
- Orders received significantly above weak prior-year comparable (+27%/ org. +35%)
- Strong decrease in revenue by -46% (org. -33%), in South Africa delay in contract awards, projects in transmission line construction do not start before Q2
- Only slight improvement in EBITA adj. from -€5m to -€4m due to temporary lower revenue
