

BILFINGER SCRUBBER

HIGH ENVIRONMENTAL
FRIENDLINESS

HIGH SYSTEM RELIABILITY

WELL-ENGINEERED CONCEPT

SHORT AMORTIZATION PERIOD

LOW OPERATING COSTS

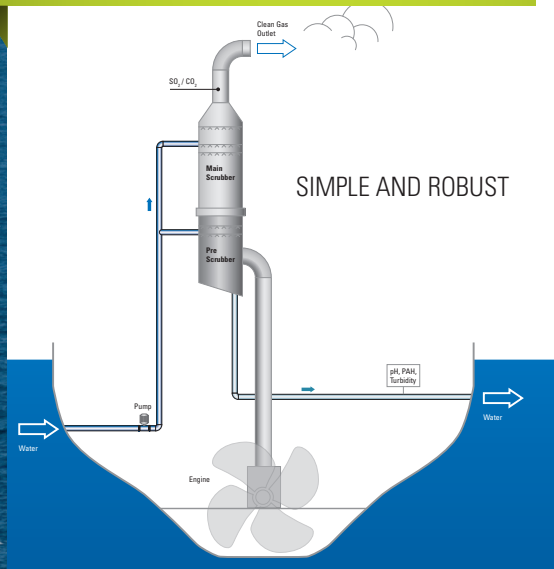

COMPACT DESIGN

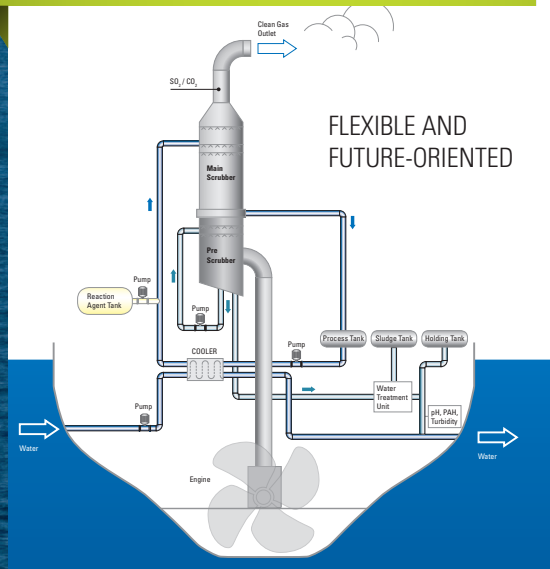

HYBRID SCRUBBER – ONE SYSTEM, TWO OPTIONS

The Bilfinger Scrubber is generally installed as hybrid system on the vessel, combining open loop and closed loop operation in one. The advantage: our customers are able to switch between operation modes, depending on shipping routes and the corresponding statutory regulations.

OPEN-LOOP SCRUBBER

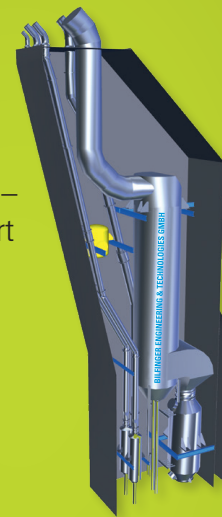

CLOSED-LOOP SCRUBBER

FLEXIBILITY ALSO DURING EXECUTION

The Scrubber can be implemented as Single-Line or Multi-Stream.

Quickly realizable –
with minimal effort

Particularly space-saving –
with an optimal
price-performance-ratio
